

- Prepare a document with details of the following along with their price

Power BI Desktop

Power BI Desktop is a free Application which we install on a local Computer. It helps to connect transform and visualize the data. By using Power BI Desktop we are able to connect data coming from different sources and them combining into a single Data Model. This Data Model helps to build a single visual or collections of visual which can further share as Report inside an Organization.

Power BI has the following common uses:

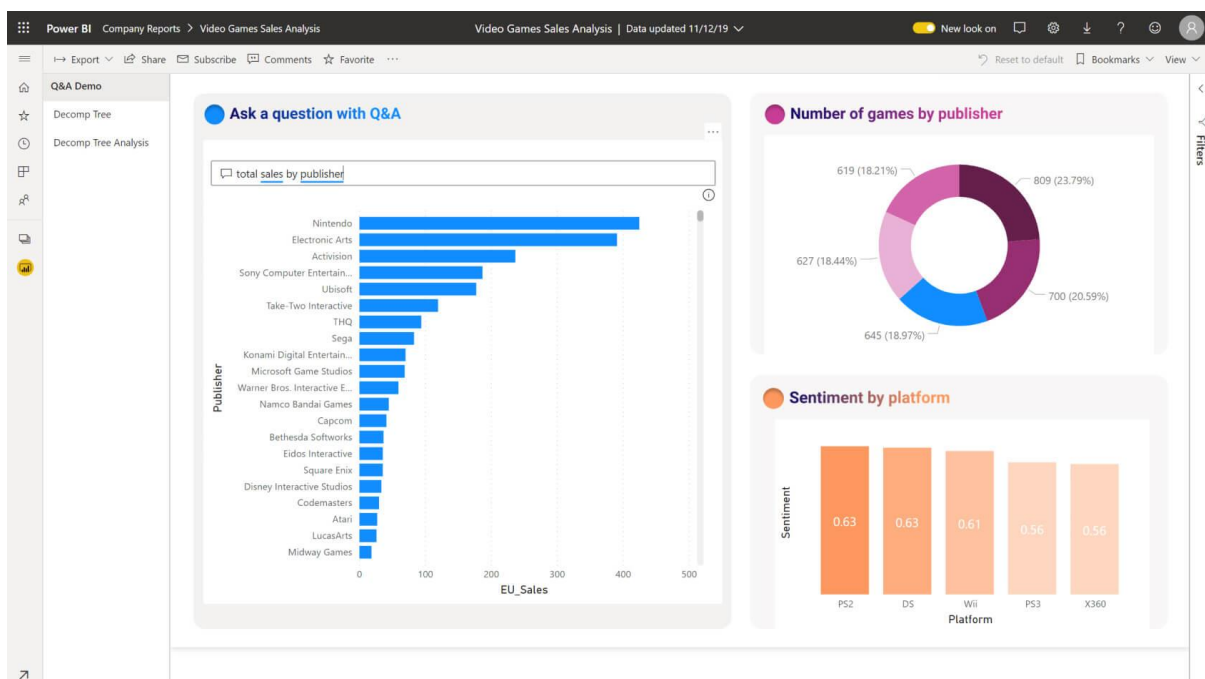

1. Connect to data
2. Transform and clean that data, to create a data model

3. Create visuals, such as charts or graphs, that provide visual representations of the data
4. Create reports that are collections of visuals, on one or more report pages
5. Share reports with others by using the Power BI service

- **Pricing**

1. Power BI Desktop is Free.

Power BI Pro

Power BI Pro is an individual user license that lets users read and interact with reports and dashboards that others have published to the Power BI service. Users with this license type can share content and collaborate with other Power BI Pro users. Only Power BI Pro users can publish or share content with other users or consume content that's created by others, unless a Power BI Premium capacity hosts that content.

Features of Power BI Pro:

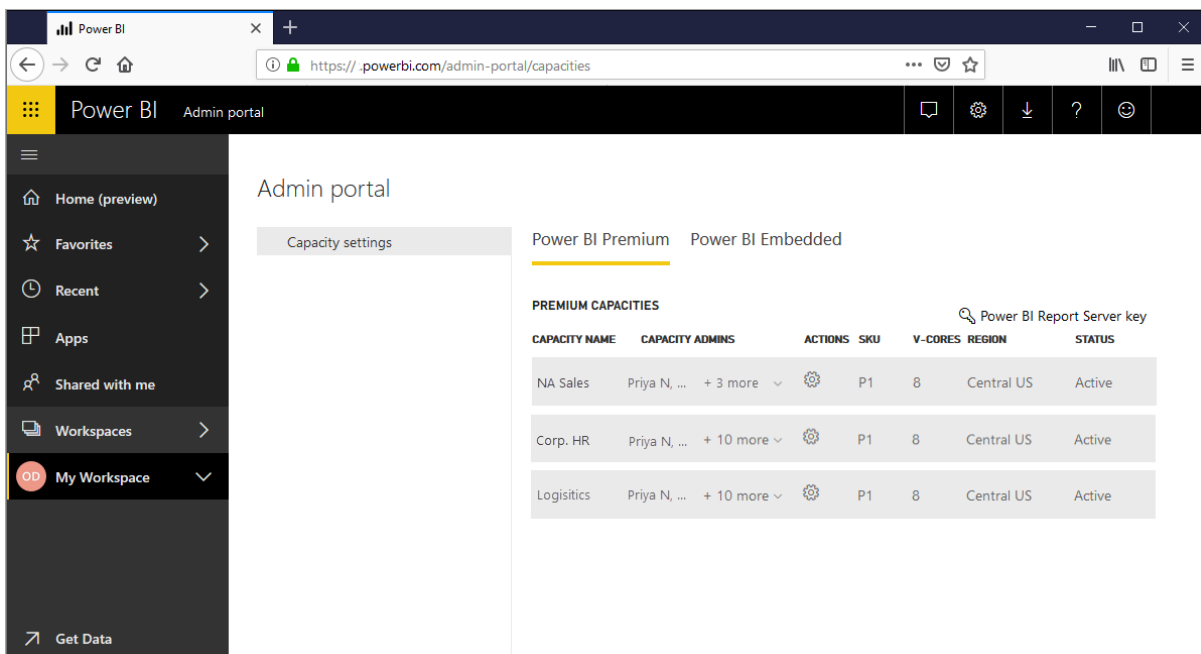

1. Peer to Peer Sharing
2. Applications

3. Email Subscription
4. Embed API and Control
5. App Workspace
6. Analyse in Excel, Analyse in Power BI

- **Pricing**

1. For using Power BI Pro we have to pay \$9.99 (USD) per user for a period of one month.

Power BI Premium

The screenshot shows the Power BI Admin portal interface. The left sidebar contains navigation options: Home (preview), Favorites, Recent, Apps, Shared with me, Workspaces, and My Workspace (selected). The main content area is titled 'Admin portal' and shows 'Capacity settings' for 'Power BI Premium'. A table lists 'PREMIUM CAPACITIES' with columns: CAPACITY NAME, CAPACITY ADMINS, ACTIONS, SKU, V-CORES, REGION, and STATUS. The table contains three rows of capacity information.

CAPACITY NAME	CAPACITY ADMINS	ACTIONS	SKU	V-CORES	REGION	STATUS
NA Sales	Priya N, ... + 3 more	⚙️	P1	8	Central US	Active
Corp. HR	Priya N, ... + 10 more	⚙️	P1	8	Central US	Active
Logistics	Priya N, ... + 10 more	⚙️	P1	8	Central US	Active

Power BI Pro is an individual user license that lets users read and interact with reports and dashboards that others have published to the Power BI service. Users with this license type can share content and collaborate with other Power BI Pro users. Only Power BI Pro users can publish or share content with other users or consume content that's created by others, unless a Power BI Premium capacity hosts that content.

- **Features of Power BI Premium**

1. Greater scale and performance
2. Flexibility to license by capacity
3. Unify self-service and enterprise BI
4. Extend on-premises BI with Power BI Report Server
